PROFESSIONAL SUMMARY

Information Technology graduate with experience in software development, web applications, system maintenance, and technical support gained through internships and real-world projects. Skilled in problem-solving, debugging, database management, and creating user-friendly solutions. Quick to learn new technologies, adaptable to different work environments, and committed to delivering reliable, high-quality results while continuously improving technical and professional skills.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS

Backend: PHP, Firebase, Supabase

Database: MySQL, MongoDB, Firebase Firestore

Tools/Other: Git/GitHub, VS Code, Figma, Canva, XAMPP, Postman

WORK EXPERIENCE

Frontend Developer | LINQSYNC Real Solution | 03/2025 - 05/2026

- Redesigned company websites to improve visual appeal, usability, and overall user experience
- Debugged and fixed website issues to improve performance and functionality
- Worked on frontend updates and design improvements based on project requirements

Software Developer Intern | Provincial Government of Tarlac Tourism Office | 02/2026 - 05/2026

- Developed and improved web-based applications supporting tourism information management
- Designed and optimized databases to improve system performance, data integrity, and security
- Debugged, maintained, and improved software functionality across internal systems
- Collaborated with stakeholders to gather requirements and implement technical solutions.
- Performed accurate data entry, validation, and maintenance of tourism-related records and system databases.
- Organized, updated, and verified digital records to ensure data accuracy and consistency.

PROJECTS

Full Stack Developer | CATHS Asset Management System | 09/2025 - 11/2025

Tech Stack: React.js, Firebase

- Built a digital asset management system with secure authentication and reporting tools
- Centralized asset records through a structured digital platform for better organization

Full Stack Developer | Diwa Inventory System | 02/2026 - 03/2026

Tech Stack: React.js, Tailwind CSS, PHP, MySQL

- Developed an inventory tracking system with CRUD operations, search, and database management
- Streamlined inventory monitoring through a structured management platform

Frontend Developer | Tarlac National Art Competition Website | 03/2026 - 04/2026

Tech Stack: React.js, JavaScript

- Developed a responsive event website for registration and artwork submission workflows
- Improved accessibility and usability across devices with a user-friendly interface

Full Stack Developer | Wedding RSVP System | 04/2026

Tech Stack: React.js, Tailwind CSS, PHP, MySQL

- Built a mobile-first RSVP platform for guest registration and event management
- Focused on responsive design and smooth registration flow

UX Designer & Frontend Developer | Study Snap | 12/2025

Tech Stack: React.js, JavaScript

- Designed a productivity-focused student task management application with intuitive UI/UX
- Created a user-friendly interface focused on usability and student productivity

EDUCATION

Bachelor of Science in Information Technology | Tarlac State University | Graduated: July 2026

Major in Web and Mobile Application Development
